1.The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Magnusson et al –300 (see Fig. 3C) as characterized by applicant at page 2, third paragraph of the instant specification in view of Chou –905 or Chou –905 in view of Magnusson et al –300 for reasons of record.

2.Applicant's arguments filed January 30, 2005 have been fully considered but they are not persuasive. Applicant submits that Chou –905 is not available as prior art against the instant claims since the instant application claims priority from the application which became the Chou –905 patent. However, when an applicant files a CIP whose claims are not supported by the parent application, the effective filing date is the filing date of the child CIP. Any prior art disclosing the invention or an obvious variant thereof having a critical reference date more than 1 year prior to the effective filing date of the child can be used. See MPEP, 2133.01.

**3.THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1732

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
